

M6 Robotic Laser Testimonial

Michelle has had pain for 7 months, she has been a patient of the Liebman Wellness Center for at least 20 years. This is only her 4th treatment with the M6 Robotic Laser.

1. Name and city they live?

Michelle Gabbay, Cherry Hill, NJ

2. What pain they had before being treated with the M6 Robotic Cold Laser?

Michelle had pain starting at the hips, going to the knee, and sometimes traveling to the end of the leg. She described the feeling as, “someone sticking her with a knife.”

3. How did that pain affect their life?

She couldn't stand, and had to sit down quickly.

4. How do they feel now after M6 robotic laser treatments?

After 4 treatments, she feels 65% better.

5. What positive affect did it have on your daily activities now?

She is feeling much better. She can stand up and walk, without enduring the feeling of sharp pain.

M6 Robotic Laser Testimonial

1. Name and city they live?

Sandy Krassan, Mt.Laurel, NJ

2. What pain they had before being treated with the M6 Robotic Cold Laser?

Before treatments, Sandy had pain in her lower back, which would go down her right leg and into her knee. The extreme pain was constant, she felt it 24/7. Her history includes a previous back surgery, where metal screws and rods were placed within her spine.

3. How did that pain affect their life?

It stopped her from sitting for long periods of time, standing, walking, and prohibited her from sleeping well. In general, the pain limited her daily activities and comfort.

4. How do they feel now after M6 robotic laser treatments?

Now, the pain in her leg has improved dramatically, it is no longer constant. It has helped her leg a lot thus far, after only 4 out of 10 treatments.

After 5 treatments, she now feels **no** pain going down her leg when she sits! She is still working on her back pain.

5. What positive affect did it have on your daily activities now?

She is able to walk further, can sit without pain, and can stand up for longer periods of time. She is thrilled because she can now take long drives!
